

Rapid Si
W/ Quercetin and Inositol

Rapid Si

W/ Quercetin and Inositol

First-of-its-kind formulation that combines silicon's structural power with quercetin's protective strength and inositol's cellular intelligence. Silicon builds the foundation by strengthening cell walls and enhancing nutrient uptake throughout the plant.

Quercetin, nature's most powerful antioxidant, protects these enhanced cells while boosting flower development and essential oil production. Inositol completes the system by optimizing nutrient movement and cellular communication. Our advanced nano-encapsulation ensures these compounds reach their targets efficiently, delivering visible results: enhanced resin production in cannabis, firmer fruits with longer shelf life, and more nutritious leafy greens.

Key Benefits

-  Enhanced flower and fruit development through optimized cell strength.
-  Superior protection against environmental stresses.
-  Maximized essential oil and secondary metabolite production.
-  Improved nutrient uptake and distribution.
-  Extended shelf life and post-harvest quality.
-  Enhanced color development and visual appeal.

Advantages

- ✓ Triple-action formula strengthens, protects, and optimizes cellular function.
- ✓ Advanced nano-delivery system ensures maximum absorption and effectiveness.
- ✓ Visible improvements in crop quality and market value.
- ✓ Superior stress management during critical growth phases.

Product Characteristics

- Liquid silica with amino acids.

Different Applications

Guaranteed Analyzed (%w/w)

Silicon	2%
Quercetin	0.5%
Inositol	0.2%

Compatibility

Compatible with most fertilizers and crop protection products. A compatibility test is recommended before mixing with other products.

Packaging

*Subject to availability in our warehouse stock.

Rapid Si Quercetin & Inositol is an advanced blend that combines silicon to strengthen cell walls and improve uptake, quercetin to protect cells and boost flower and oil production, and inositol to enhance nutrient flow and cellular signaling. **Stronger plants, firmer fruits, and higher-quality crops!**
